AccuLock, Inc.

ALS2 (AccuLock System Two)

The AccuLock System Two (ALS2) features dual AES-encrypted RFID and mobile key access technology integrated into a traditional ANSI-compatible lock design.

Designed to deliver premium performance without premium pricing, the ALS2 combines built-in mobile key capability, AES security, and long-term reliability in a straightforward ANSI-compatible solution.

RFID Specifications :

- 13.56MHz technology
- Eleven free sectors for future All-in-one card application use
- ISO 14.443 A (MIFARE)

MOBILE KEY INCLUDED

AccuLock System Two Benefits:

- **Guest Satisfaction: Supports RFID credentials and mobile key access, providing guests with a fast, secure, and convenient entry experience.**
- **More Security: Anti-hacker technology does not allow reprogramming lock memory from the outside escutcheon.**
- **More Adaptability: RFID key-cards, wristbands and fobs can be used for any style hotel, motel, AirBnB, resort, multi-family, offices, and cabins. You can choose from low cost RFID guest cards, wristbands and key fobs to perfectly match different property types: Business, Resort, Spa, All-Inclusive.**
- **More Information and Control: ALS2 locks can relay information to the hand held programmer for easy and reliable management: Entry record audit trail, low battery status, real-time clock adjustment, etc ...**
- **More Integration: You can integrate and interface ALS2 software with any Windows based computer.**
- **More Exclusivity: Provide a new experience for your customers and enhance the image of your hotel.**
- **UNRIVALED customer service**
- **3 year warranty!**
- **24 hr free technical support comes with AccuLock's ALS2 locks.**
- **... and Less Expense: Our ALS2 lock system is VERY competitively priced!**
